

to the FCC:

I was surprised and disappointed to learn that Sinclair Broadcasting has decided to suspend regular programming to air an anti-Kerry documentary just before the presidential election is to take place. Inasmuch as Sinclair Broadcasting is obligated by law to serve the public interest, this decision on their part violates the principle of serving the public interest in a fair manner.

We are talking here about a very large company with multi channel capability that is using it's resources unfairly to influence a fundamental democratic event--a national presidential election! If this were to happen in a dictatorship where radio,TV, and Newspapers are owned and monopolized by the government, I could understand but not condone it. In America, such activity is intolerable. I hope that the FCC will take action to discourage and completely curtail this obvious abuse of power. That would be my first preference. At the very least, I must respectfully demand that a Kerry documentary be allowed equal time to compensate for this breach of public trust. Thank you
